¹ 100 Named Users are included in the purchase price with each Livelink Server. Named Users may span across Livelink Servers when all such servers are running the same application. Additional Named Users can be purchased at \$97 per user. Add 30% of the Livelink Server price (including all Livelink Options) to the server price for each additional processor (above 2 processors) on each server. A minimum of 50 or 100 Named Users must be purchased with a Livelink Server.

² A "Named User" is a single individual user authorized by the provisions of the relevant license, sublicense, or other agreement signed between WTC and its customer ("Customer") to access and use specific software products in a computer network environment. A Named User is normally assigned both a login name and a password specific to that individual so as to allow such individual to access and use such products.

³ Once a Livelink Starter Pack customer has purchased an additional 50 Named Users, normal pricing applies for any additional Named Users. The Livelink Starter Pack price is non-discountable.

⁴ The Livelink SDK includes the Livelink API and the Livelink Builder (OScript development environment, and the Livelink HTML application templates).
